Use's notes

The filing system Istoglass is an archive realized in sheet metal, thickness 9/10, japanned white or green.

Istoglass has fourteen drawers running on guides. Each drawer is furnished with a knob and the possibility to apply a paper label.

Is it possible to insert 14 metal spring (code 03-5000-MD), one for each drawer, in order to keep standing up the slides; every Istoglass may contain up to 5.000 slides; with the separator springs the capacity is 2.500 slides.

Each Istoglass could be equipped with a base (size 490 x 490 x 60 mm) and a cover (size 490 x 490 x 25 mm).

They are also realized in sheet metal, thickness 9/10, japanned white or green.

It is possible overlap different Istoglass elements (until maximum 10 elements). In this way, it is possible decreasing the archives' size, assuring the content protection.

The filing system Diateca, code **03-7000**, allows, instead, archiving film slides, Super mega cassettes or slides for macro-sections. Each Diateca has 7 drawers. Each filing system may contain:

- about 1645 film slides (dimension max. 67 x 70 x 2 mm), 235 for each drawer;
- about 220 Super mega cassettes for macro-sections (dimension about 67 x 70 x 15 mm);
- about 5000 slides for macro-sections (slide maximum dimension 67 x 76 mm).

The size of Diatecas is always the same. In this way it is possible to overlap them on standard filing system.

Each Istobloc is packaged in resistant clipboard with the indications for the correct position during the transport.

For this kind of product particular precautions for storage aren't necessary.

Validity date: not applicable.
